Hunch/problem/trigger (What is a 'valued outcome' in my classroom that I want to work on?)	Evidence (How do I know? Data may be quantitative or qualitative)
What do I already know that could be useful?	
What new knowledge and/or capability do I need?	Where can I go or who can I ask to help?
What are some possible strategies I could use?	
How will I know it's made a difference? How will I measure any change?
